

2nd Semester, 2019/2020

Course Code: ELE 577

Time : 1.00 Hr

NEURAL NETWORKS

The Exam. consists of Three Questions in one page

Evaluation Test

Question (1)

- (a) What is counter propagation neural network (CPNN)?
- (b) What are the types of CPNN?

Question (2)

Explain with an example how neural networks can be used for pattern recognition.

Question (3)

What is the chain rule used in supervised learning of neural networks using back propagation

Course Coordinator

Exam. Date: 15 April 2020.

Prof. Adel Abdel Masieh Saleeb
